

Rubber Nugget

A simple DuckyScript powered USB attack platform.

- 1** Power on your WiFi Nugget via USB Type C. Hold the down button while powering on the Nugget if you wish to edit files over USB.
- 2** Connect to the "RubberNugget" access point using password "nugget123" and open 192.168.4.1 in a browser to upload payloads.
- 3** Run and edit scripts using the web interface or use the built-in screen & buttons to quickly deploy HID payloads on the go!

S2 WiFi Nugget

A Product by HakCat Hardware

STATEMENT OF CONDITIONS

This kit has not been authorized under the rules of the FCC and is designed to allow:

(1) Product developers to evaluate electronic components, circuitry, or software associated with the kit to determine whether to incorporate such items in a finished product. (2) Software developers to write software applications for use with the end product. This kit is not a finished product and when assembled may not be resold or otherwise marketed unless all required FCC equipment authorizations are first obtained. Operation is subject to the condition that this product not cause harmful interference to licensed radio stations and that this product accept harmful interference. Unless the assembled kit is designed to operate under part 15, part 18 or part 95 of 47 CFR Chapter I - FCC, the operator of the kit must operate under the authority of an FCC license holder or must secure an experimental authorization under part 5 of the latter chapter.

The WiFi Nugget is an educational tool for authorized auditing and WiFi security purposes only where permitted subject to local and international laws where applicable. User are solely responsible for compliance with all laws of their locality. HakCat LLC, and affiliates claim no responsibility for unauthorized or unlawful use.
